A brand new 51-storey residential tower set within New Jackson – a new urban neighbourhood at the southern gateway to Manchester city centre. With its elegantly sculpted exterior and understated colour tones, Contour offers welcoming living spaces, for those who appreciate refined luxury.

Beautifully lived.

# RENAKER

From the point of conception, we aim to design places and spaces that enrich the lives of those who choose to call them home. How spaces are used change with time, and we are very sensitive to this, which is why we aim to evolve our amenity offerings on each development.

Our goal is to create new, aspirational neighbourhoods that endure through time, and in which communities can thrive.

## → WHAT OUR PURCHASERS SAY

"It's rare to find a developer who actually adheres to the CGI marketing materials with accuracy – I can honestly say that Renaker achieves exactly that, and in fact, they often over-deliver in terms of additional amenities and extra touches of quality. In my experience, be it a personal home or an investment purchase, buying from a good developer is the key to ensuring a stress-free and positive experience further down the line. You won't find better in Manchester."

BRADLEY  
PURCHASER (INVESTOR) AT  
DEANSGATE SQUARE & CASTLE WHARF

"I am a lucky owner of an apartment at Deansgate Square. I have moved to Manchester due to starting my clinical years at Wythenshawe Hospital, hence I was looking for a place that would be central, allowing me to enjoy the city life, yet be close to key routes that make commuting extremely accessible. Deansgate Square has it all and even more, starting with its absolutely amazing facilities and finishings, and outstanding level of service and care provided by the on-site team.

I absolutely love Manchester for how vibrant and diverse it is, and living here makes me feel simply happy. I was not certain of what to expect since I didn't get a chance to view the property prior to moving in, but now, I can most certainly say that choosing this development was the best possible decision I have ever made."

RENAKER

Contour represents the exciting next phase of development within the New Jackson neighbourhood, and is the first of a pair of towers, each with its own secure underground parking, residents' amenity spaces and private external terrace.

Contour is located to address a significant new public realm space, which provides an open setting for the development and the neighbouring Deansgate Square, whilst also connecting New Jackson to Hulme Park, and Manchester city centre by a network of cycle and pedestrian pathways.

The overall approach to the elevational treatment of the Contour tower is to complement the emerging context of the New Jackson neighbourhood. Consideration has been given to the form, and its relationship with the adjacent towers of Deansgate Square, which act as both contrasting and unifying elements.

The development of the elegant, extruded form with undulating chamfered corners provides an opportunity to create a strong, responsive façade language. The chamfered corners are fully glazed, creating highly reflective angular facets, whilst the principal elevations of the tower have been designed in coloured anodised aluminium to provide a visually contrasting surface.

The tower is anchored at its base via pairs of double height tapered columns, located on each of the chamfered corners. These frame a 2-storey podium designed to be visually distinct from the tower overhead. Each podium is then augmented with a private garden space.

The public realm is almost 1.5 acres, comprising a nodal point on the pedestrian route from Hulme Park through the New Jackson Masterplan edging the River Medlock and linking to the wider city.

# The Masterplan

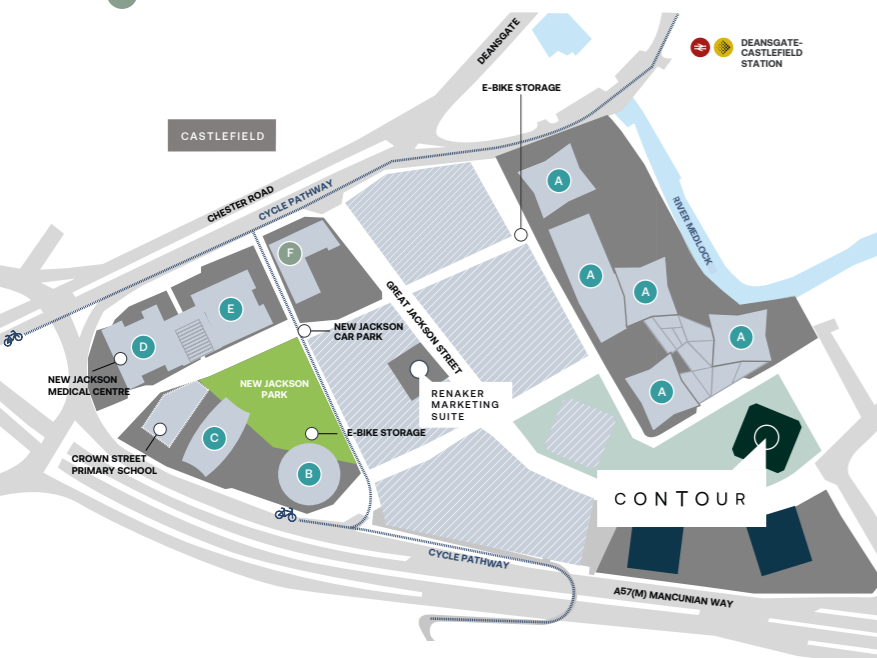

Contour perfectly embodies the broader masterplan being realised across the New Jackson neighbourhood. Under Renaker's stewardship, the area is set to transform the Manchester city skyline.

We plan to create substantial public realm improvements from green space to educational, and medical facilities. We are approximately 7 years into a 15-year masterplan. Progress is well underway to date with more than 2,500 new homes already delivered, 939 homes under construction, and almost a further 3,000 in the pipeline.

These will be connected by a network of new pedestrian and cycle pathways, seamlessly connecting residents with the adjoining neighbourhoods and wider city beyond.

# Elevated elegance

Comprising 51 storeys of artfully refined living space, Contour's structure is shaped by an elegant glass façade, complemented by anodised aluminium cladding in a subtle green metallic tone.

Its character is most strongly defined by the sculpted edges, which draw in and out, providing dynamic vertical movement to the tower's aesthetic. This subtle contour gives the building an understated, stylish presence in the iconic Manchester skyline.

Computer-generated images and photography are intended for illustrative purposes only and should be treated as general guidance only.

# Perfectly formed

A defining new presence within the New Jackson neighbourhood, Contour has a choice of beautifully considered one, two and three bedroom apartments and penthouses, with deluxe amenities and a welcoming, contemporary ambience.

Say hello to refined luxury living.

## CONTOUR

## Inner city serenity

Central to our vision for the development is the abundance of green space across the Contour footprint via its public gardens, which span just under 1.5 acres in size.

Within the New Jackson area, a new public park with children's play area has been created for residents and the local community to enjoy all year round.

## Dog Park

We think about your best friend as much as you do, so adjacent to Contour, we have created a pooch-friendly area. Through our choice of plants, materials, textures, and toys, our dog-friendly area provides stimulation and enrichment for all furry friends to enjoy.

Computer-generated images and photography are intended for illustrative purposes only and should be treated as general guidance only.

# Interior Vision

Contour – conveniently located not only a stone’s throw from Castlefield, historically the industrial heart of Manchester, but also adjacent to the stunning urban complex of Deansgate Square.

The location of Contour, paired with the complementing architecture and faceted forms, has given the studio an incredible canvas to concentrate their initial inspiration on. With a client brief to create a combination of unique and luxurious interiors within the 12,000 sq ft of amenity spaces on offer, the studio has created a series of interior settings, including an intimate resident’s lounge with open fireplace, inspirational co-working suites, a sumptuous cinema snug with bar, and golf simulator, to name but a few!

Through the interior design development of Contour, the team have been heavily influenced not only by the design of some of the world’s leading Michelin-starred restaurants, but the shared ethos behind them. With an aspiration to create spaces that feel refined and elegant, and an emphasis on exceptionally well-considered and beautifully crafted spaces, the interior design allows the resident to feel totally immersed in their surroundings.

The interior finishes and material palettes have been inspired by the building’s contemporary green anodised aluminium façade, as well as references to Castlefield Basin, River Medlock and the industrial backdrop of brick, and sandstone from years gone by. Through the materiality of dark timbers, green granite and copper detailing, the interiors exude an elevated elegance that flows through the variety of amenities that Contour has to offer.

## Sophistication around every corner

Contour’s amenity spaces are a tasteful blend of the calmly communal and luxuriously personal.

From the artworks mounted on the walls to our choice of furnishings and fittings, and the intelligent, intuitive way each space flows, every last detail has been considered to help provide movement, access and comfort for whatever mood you’re in.

What’s more, here at Renaker, we have taken learnings from our previous developments to ensure our offering is continuously refined and considered, with each amenity space well-thought-out to suit all of our residents’ needs.

## → THE RENAKER DIFFERENCE

Resident feedback is important to us. We listen to our residents and make improvements.

When we opened our state-of-the-art gymnasium at Deansgate Square in 2020, we immediately began gathering feedback from our residents, so that we'd be able to update and improve the facilities in line with their wants and needs, and ensure it never stagnated.

Using their feedback, we redesigned the layout and added a wide range of new equipment including more functional resistance and cardio equipment. We also invested in a revolutionary TANK™ training sled, making Deansgate Square the first residential development in the UK to have one.

# Bring your ideas to life

The Studio at Contour - a destination designed for crafting podcasts, videos, tutorials, and beyond. Our Content Creation Room and Instagram Pod offer an unparalleled environment to nurture and bring your innovative ideas to life.

In today's dynamic culture and work environments, content creation plays a pivotal role. That's why we've integrated dedicated spaces for it in our developments, showcasing our forward-thinking approach.

All dimensions are taken from the predominant length/width of the room (↔) and are approximate dimensions only. The apartment sizes detailed indicate the smallest sq m/sq ft for each apartment type. Layout sizes and measurements may vary within a 5% tolerance. Floorplates shown are approximate dimensions only. Please be advised the windows on the corners of the building from floors 2-40 are at an angle of circa 5.01° on each floor. From floors 41-50 the angle on each floor is 2.44°. As the building corners are chamfered in and out, this angle may be inward facing or outward facing. Please refer to Sales Consultant, C3i's, and models for further clarification. There are changes to the thickness/width of the column structure throughout the building. Notably, changes are observed at levels 2, 15, 31, and 40. This design modification leads to a slight increase in square footage on higher levels. Purge vent door panel positions will vary on all elevations. # Unwavering success

Renaker is a developer with a reputation for delivering Manchester's most iconic developments.

Concentrating on city centre brownfield regeneration, our mission is to efficiently deliver spacious, high-quality homes with desirable amenities, all whilst creating aspirational new neighbourhoods, in which residents can thrive.

Established in 2006, Renaker is now firmly recognised as Manchester's leading property developer. We have delivered over 8,000 homes to date.

Renaker are committed to delivering quality, considered designs and innovative solutions, and have been successful in the delivery of numerous projects at prime sites across Manchester.

## 10 reasons to buy from Renaker

01

### MANCHESTER'S LEADING DEVELOPER

We are Manchester's leading developer with a strong reputation and a proven track record of successful projects.

02

### CUSTOMER FOCUSED

We are customer-focused and provide a high level of service throughout the buying process, from initial enquiry through to completion and beyond.

03

### ASPIRATIONAL NEW NEIGHBOURHOODS

We are committed to creating aspirational new neighbourhoods for the long term where communities can thrive.

04

### EXCEPTIONAL COMMUNAL AMENITIES

Our developments comprise unmatched communal amenities, which serve to enhance the lives of those who choose to make them their home.

05

### SUPERIOR QUALITY

We pride ourselves on superior quality. Our developments consistently incorporate high-quality design and materials, from the residential apartments through to the amenities and the wider public realm.

06

### HIGHLY SKILLED IN-HOUSE DESIGN AND BUILD TEAM

Our highly skilled in-house design and build team not only strive to efficiently deliver aspirational schemes, but look beyond the build to the long-term success of the neighbourhood to ensure our vision is sustainable.

07

### SOUND INVESTMENT OPPORTUNITY

Buying at Contour represents a sound investment opportunity with strong rental yields at c.6%\*.

\*Based on local agent rental predictions.

08

### SERVICE LEVELS AKIN TO THAT OF A 5\* HOTEL

We work closely with our management companies, and all our on-site concierge teams have hospitality backgrounds to create a service level akin to that of a 5\* hotel.

09

### POSITIVE INVESTMENT INTO PUBLIC REALM

We invest heavily in the public realm to create neighbourhoods that positively impact the wider local community by adding new green spaces, retail and commercial operators, and cycling and walking routes.

10

### SUSTAINABILITY AT THE CORE

Sustainability is a key element of each and every development project, and we strive to make continuous improvements in this area.

# Creation of neighbourhoods for the long term

FLOURISH AT DEANSGATE SQUARE

We understand that creating new neighbourhoods comes with a great responsibility to get the balance right between residential development, commercial uses, green spaces and social infrastructure, to create sustainable communities that stand the test of time.

Delivery of large scale, accessible and attractive public realm is at the core of all our developments. Careful consideration is taken in ensuring we offer something different, whether this be a more suburban style soft green park, or more civic hardstanding spaces that properly compliment a riverside. In this way, we are providing residents of the neighbourhoods and the surrounding local community with new spaces to enjoy.

We also take a considered approach with all our commercial operators, ensuring they are local, independent businesses, in order to provide the right offering while enhancing the local area.

## FROM OUR COMMUNITY

"[As first time parents], we've made friends with other parents [at Deansgate Square]. Aurelia has made friends with the other children and for a lot of us, it was our first child, so we've formed our own little community within the Deansgate Square community. It's lovely to feel so welcome."

## Year-round events programme

As part of our commitment to building sustainable communities, we have appointed a 'Head of Experience' to help bring life to the development. Their role is to work closely with our on-site teams and commercial partners, to create a year round programme of exciting events, which will enliven the spaces for both residents and the public to enjoy.

"What makes [Renaker's] developments different to others is the standard of amenity that is on offer, but it's also the number of events that we put on, which helps to build community."

We're not just seeing communities emerge and grow within our own developments, we're also seeing the public spaces being used, which connect our own residents and bring people from the wider neighbourhood [together]."

# Delivering sustainable homes for the future

Sustainability is a fundamental aspect integrated into the delivery process of every construction and development project we undertake.

Here at Renaker, our ethos is to develop and build sustainable facilities, homes and amenities that communities desire.

As part of our policy, we strive to continually improve our buildings' carbon footprint without compromising on quality. We do this at every step, from the procurement of sustainable and low-carbon products where possible through our responsible supply chain, through to clever building design and specification, to construct a building that minimises its power usage throughout its life.

We are proud to say that over 90% of our apartments are EPC rated B\*

\*Sample of 1,020 apartments on different floors across 7 developments (Deansgate Square, Victoria Residence, Elizabeth Tower, Castle Wharf, Cortland at Colliers Yard, The Blade, Exchange Court. Ratings as of March 2023 (valid for 10 years).

## So far, we are:

- Implementing a plan for our buildings to achieve net zero carbon by 2038, in line with the Manchester Climate Emergency Declaration, 12 years ahead of the target date of 2050.
- Insulating our buildings well, whilst also designing our buildings to use electricity from renewable sources.
- Installing high efficiency white goods and secure cycle stores as standard throughout our developments.
- Providing up to 20% of our car parking allocation with EV charging points across all of our new developments.
- Working alongside Manchester and Salford City Councils to invest in several new pedestrian and cycle pathways, to create sustainable travel routes for the local community.
